### PROFESSIONAL EXPERIENCE

#### Full Stack Developer Trainee

##### DevTown

December 2022 - April 2023

- Up skilling in making MERN stack applications by using React JS, Node JS, Express & MongoDB.
- Built MERN stack of 5 group projects with my teammates.

### MAJOR PROJECTS

#### SWIGGY WEBSITE CLONE

Website Link :- <https://swiggyyclone.netlify.app/>

- Built a Swiggy clone in React.js, integrating the Swiggy Delivery API. Implemented a custom hook for optimized API handling, employed Context API for global state sharing.
- Successfully replicated essential Swiggy features, including restaurant listing, search functionality, menu browsing, and seamless cart management.

#### MOVIE BOOKING SITE

Website Link :- <https://balu-booking-app.netlify.app/>

- Developed in MERN stack application which help users to find new/upcoming movies and book them.
- Used JWT for authentication/authorization & bcrypt for hashing passwords.

#### TODO LIST

Website Link :- <https://todolist-kdha.onrender.com/>

- Developed a responsive TodoList application using React.js, employing Redux Toolkit for efficient state management. Integrated Redux Persist for seamless data persistence across sessions.

#### DRAGON GAME

Website Link :- <https://balu-dragon-game.netlify.app/>

- Developed Dragon game using with HTML, CSS and JavaScript just like google chrome Dinosaur game.
